Apache Spark is a big data processing framework that combines in-memory computing and high-throughput computation to handle big data. [??](#) Apache Spark [????????](#). Adventures in internet marketing, tech, and life Tudou.com, one of China's largest online video providers, is launching their own closed-loop advertising platform. In order to do that, they have to first partner with China's massive affiliate-sharing platform LeTV.com. Today, there are over 40,000 videos on LeTV.com, and many of them are sponsored. Tudou also has a slightly smaller-scale platform 82157476af
